

Request for Passport Booklets and Real ID Compliance

Introduction

We the People respectfully and formally request the Federation of The United States of America unincorporated to immediately and at the earliest possible date initiate a process for the creation and issuance of an official American State National (ASN) passport. This new ASN passport is to be issued by the Federation Postmaster and through the Federation Post Office in Philadelphia in conformance with the Universal Postal Union (UPU) treaty as adhered to by all the member nations. The creation and issuance of passport booklets to every ASN is to be done with all possible haste. The issuance of these passport booklets is essential to establish international recognition lawful identification and documentation for all ASN's.

Issuance of Passport Booklets

The request emphasizes the necessity of providing passport booklets to every ASN. By completing this process, the Postmaster and Post Office will ensure that all individuals have access to unflinching true identification, which is a fundamental protection for numerous official purposes and activities involving both the de jure and the de facto administrations.

Real ID Compliance Requirements

Real ID Compliance Requirements

Even though any passport booklets meeting the International standards for creation and issuance meet and surpass Real ID compliance requirements, We the People require that our current ASN credential cards also be issued in tandem with the passport book and utilized in the same manner as the de facto government issued passport card.

AFD-American Federation Dollar Availability

AFD to USD Conversion and Exchange

Immediate access to OUR gold, silver, and other precious recovered assets. This access should be facilitated through asset-backed digital tokens, as well as physical gold or silver, with the capability to exchange these assets into any desired currency—including, but not limited to, U.S. dollars (USD)—to fulfill our purchasing needs and requirements. By integrating exchange functionality and secure digital representation of assets, ASN's are empowered to utilize their wealth efficiently and confidently wherever and whenever necessary.

Conclusion

Through this request, We the People highlight the importance of both issuing passport booklets to every ASN and ensuring their compliance with Real ID standards. Together, these steps will provide improved identification, security, and official recognition for all members.
