

## Summary of Key Updates on GFG Prosperity System and Lawful Conversion Process

This detailed update centers around the **lawful conversion of countries and banks** to the new **Global Financial Governance (GFG) Prosperity Prepaid Credit System**, led primarily by Anna and the American Federation team. The process is currently underway with significant progress, especially in Africa, and expanding soon to Europe and America.

---

### Core Developments and Insights

- **Lawful Conversion Status:**
    - **75% of African countries** (not just banks) have been **lawfully converted** to the new GFG system, meaning these nations have accepted the new prosperity prepaid credit system and integrated it into their banking and trade infrastructure.
    - **Ghana** is the **first country** to fully utilize and operationalize the GFG Prosperity Prepaid Credit system, serving as the initial real-world implementation before a broader rollout.
    - By the **end of May, 38 African nations** are expected to be lawfully converted.
    - Europe's conversion has already started and is critical due to its deep systemic issues. Once Europe is converted, the United States will follow, given the close linkage between European and American systems.
    - The United States "unincorporated" government under the American Federation has been officially recognized behind the scenes, with civil services being transferred to this body, which will accelerate the rollout of new governmental financial services.
  - **Scope of Conversion:**
    - This conversion is not limited to commercial banks but includes the **entire countries' legal and financial systems**, effectively replacing old structures with the new GFG system.
    - The lawful conversion includes integration with the **GFG Prosperity Credit System** and involves setting up the new credit system for goods, services, and trade.
- 

### Financial Instruments and Clarifications

Term	Definition / Role
<b>AFD (American Federation Dollar)</b>	A prepaid credit backed by gold, representing reimbursement for goods and services already provided. Central to the GFG credit system.
<b>Heritage Dollar</b>	Linked to gold and silver backing, part of the overall asset credit system.
<b>Saint Crown</b>	A digital trading platform primarily connected with the African and African American communities. Publicly lists the AFD to establish legitimacy but is secondary to GFG's main system.

---

- The **AFD prepaid credit** is essentially a gift system that reimburses for past goods/services, credited as prepaid funds accessible via prosperity cards.
- The **Saint Crown platform** supports GFG's African rollout due to its strong ties with African communities but is not the main system for GFG.

### Access to Credit and Usage Guidelines

- The rollout of credit access will be **gradual and controlled** to avoid systemic overload.
- Initially, individuals will receive enough credit to cover **day-to-day living expenses**, including utilities, food, and basic necessities.
- Credit will also be available for **home remodeling and upgrades**.
- **Large purchases** (e.g., buying new property, clearing mortgages) will come later, after new government services are fully operational.
- Special provisions will be made for **distressed homeowners** at risk of foreclosure, offering relief and support to keep their homes secure.

### Timeline of Key Events and Expectations

Date / Period	Event / Milestone
February 2024	AFD officially listed on Saint Crown digital exchange.
By end of May 2024	38 African countries expected to be lawfully converted to GFG system.
Immediate	Ghana operational as first country fully utilizing the GFG Prosperity Prepaid Credit system.
Near future	Europe's lawful conversion underway, followed by America's lawful conversion.
Upcoming weeks	Prosperity cards will be funded and distributed in converted countries.
Next Wednesday (7 PM)	Launch of first global Whole Tone Music call, inviting musicians to join a healing-focused community project.
Soon (TBA)	Release of an independent manual on GFG system usage, pending feedback from African rollout experience.
Within weeks	Initiation of new shows and webinars focused on healing, health, and wellbeing, featuring Anna and others.

### Additional Initiatives and Community Engagement

- A **global Whole Tone Music community** is being formed to promote healing through high vibrational music. Musicians and enthusiasts are invited to participate.
  - New weekly shows with Anna will cover topics such as **health, wellbeing, trauma healing, and twin flame reunions**.
  - There is an emphasis on **collaboration and visioning** for community projects using the new prosperity credits, encouraging humanitarian and uplifting uses beyond basic needs.
  - The rollout will be supported by **training sessions and manuals**, with a cautious approach to avoid overwhelming the system.
- 

### Key Takeaways and Conclusions

- **Significant milestone:** 75% of African countries lawfully converted, with Ghana as the pioneering example.
  - The **GFG system is designed to replace outdated banking and government financial systems** with a credit system backed by assets like gold (AFD).
  - Controlled credit access ensures stability, starting with basic living expenses and gradually expanding to larger financial needs.
  - The **transfer of civil services in the U.S. to the recognized unincorporated government** signals rapid acceleration in the system's rollout.
  - Community engagement through music, wellness, and humanitarian projects is seen as vital to raising collective vibration and making positive use of the prosperity credits.
  - **Further detailed updates and official manuals are forthcoming**, contingent upon monitoring initial rollout feedback.
- 

### Important Notes

- The timeline and progress are **subject to ongoing verification** and updates.
  - Some technical details about the system's backend and the exact mechanisms of credit conversion remain **Not specified/Uncertain**.
  - Communication and training materials are consciously delayed to ensure accuracy and effective onboarding.
- 

This summary reflects the current state of the GFG lawful conversion process and the related prosperity prepaid credit system as shared by Anna and the GFG team, highlighting the transformational nature of this global financial reset.
